Non-Designated Heritage Assets – Asset Nomination Form

May 2026

Prepared by: Neighbourhood Plan Steering Group on behalf of Sunningwell Parish Council

Non-Designated Heritage Assets Documents

This document is one of three related to Non-Designated Heritage Assets (NDHAs) for Sunningwell Parish's Neighbourhood Plan:

1. Non-designated Heritage Assets – Factual Information
2. Non-designated Heritage Assets – Informal Briefing Note
3. Non-designated Heritage Assets - Nomination Form

What is a heritage asset?

The National Planning Policy Framework defines a heritage asset as a building, monument, site, place, area or landscape identified as having a degree of significance meriting consideration in planning decisions, because of its heritage interest. Heritage assets include Designated Heritage Assets (e.g. listed buildings) and assets identified by the Local Planning Authority (Non-Designated Heritage Assets).

What is this form for?

This nomination form asks you to demonstrate how your candidate asset meets the criteria for inclusion on Sunningwell Heritage Assets Register. The criteria ensure registration as a heritage asset is the most appropriate means to manage your valued feature of the environment.

Registration does not mean an asset will be preserved in its current state in perpetuity. Planning policy allows change to heritage assets that conserves or better reveals their significance or, where change requires their loss, replaces the benefit to the public that they provide. The information provided in support of your nomination will help determine what forms of change might be acceptable. Saying "it's important and must never change" won't tell us what we need to know to manage your heritage asset in the future.

Assessment Criteria

This criteria against which candidate NDHAs are judged are given at the end of this form.

Tick or rank?

In answers to Questions 2 – 4 you can rank the interests, values and significance your candidate asset provides from 1 (most important) to 4 (least important).

What happens next?

The Sunningwell Neighbourhood Plan Steering Group will prepare a list of candidate heritage assets, which will be presented to the public (including the owners of candidate heritage assets) for consultation.

Assessment Criteria:

Registered Heritage Assets must meet all of the four following criteria:

Criterion 1. Is capable of meeting the government's definition of a heritage asset

Demonstrate that your candidate is able to fall within the government's definition of a heritage asset; i.e. a building, monument, site, place, area or landscape.

Criterion 2. Possesses heritage interest that can be conserved and enjoyed.

Identify the features of your candidate asset that need to be cared for as heritage – this is its *heritage interest*. This might include physical things like its appearance and materials, as well as associations with past people or events. Consider whether the physical features of the candidate asset help to illustrate its associations. The four types of heritage interest listed are recognised in national planning policy.

Criterion 3. Has a value for the neighbourhood or community beyond personal or family connections, or the interest of individual property owners because of its heritage interest

Tell us why or how the heritage interest you identified in your answer to Question 2 is of local value - this is its *heritage value*. The types of heritage value suggested on the nomination form are based on national guidance by Historic England.

Criterion 4. Has a level of significance that is greater than the general positive identified characteristics of the local area.

Tell us what raises your candidate's heritage value to a level that merits its consideration in planning. Many features of the historic environment are a valued part of local character that should be managed through policies in the local plan. Registered heritage assets should stand out as of greater significance than these features for their heritage value.
